

Conference Room Solutions

PRESENTATION – VIDEO/WEB CONFERENCING - COLLABORATION

SPRING 2020

Conference Room Solutions

Conference rooms are designed to cater to a wide variety of presenters and media from all over the world. Technology needs to operate simply and smoothly, so that the AV doesn't overshadow sales presentations, new ideas, and collaboration that define business meetings.

Sources used in these rooms encompass a variety of types and formats including laptops, wireless devices, and web cameras, so the AV system must be extremely flexible.

The Mizzen Marketing solution provides the modern conference room with the power to handle any type of situation easily and effortlessly. From universal BYOD (bring your own device) compatibility, device-to-device sharing or annotation to automatic input switching and display control capability, Mizzen brands technologies excel at supporting enhanced collaboration.

Conference Room Solutions

AtlasIED

- Speakers, Amplifiers, DSP, Racks and Power Distribution
