Meeting Room Solutions

PRESENTATION – VIDEO/WEB MEETING ROOMS - COLLABORATION

SUMMER 2022

Meeting Room Solutions

Meeting rooms are designed to cater to a wide variety of presenters and media from all over the world. Technology needs to operate simply and smoothly, so that the AV doesn't overshadow sales presentations, new ideas, and collaboration that define business meetings.

Sources used in these rooms encompass a variety of types and formats including laptops, wireless devices, and ptz cameras, so the AV system must be extremely flexible.

The Mizzen Marketing solution provides the modern Meeting room with the power to handle any type of situation easily and effortlessly. From universal BYOD (bring your own device) compatibility, device-to-device sharing or annotation to automatic input switching and display control capability, Mizzen brands technologies excel at supporting enhanced collaboration.
